1 section 0 哈哈 L^AT_EX

L^AT_EX

2 compile

2.1 MakeFile

```
latex hello-latex.text
dvi2pdf hello-latex.dvi
```

2.2 sections

```
\section
\subsection
\subsubsection
\paragraph
\subparagraph
```

2.2.1 set section counter

```
\setcounter{section}{3}
```

3 contents 你好 L^AT_EX

first contents 你好 L^AT_EX

You can mix latin letters and chinese.

4 strings

this is some text of content of “this” subsection.
this is another line of content.

5 formulas

$$B^2 = \mathbf{B} \times B$$

$A[3]$ is A_3

6 left and right

`\raggedright{text on left}`

`\begin{flushleft}`
`flushleft`
`\end{flushleft}`

`\raggedleft{text on right}`

`\begin{flushright}`
`flushright`
`\end{flushright}`

`\centering{centering}`

`\begin{center}`
`center`
`\end{center}`

7 something verbatim

some thing verbatim, which without escape `\\ /23454234$&%^&^(*^\z@%@#$$%`

8 colors

Figure 1: [title of image](#)

Figure 2: 2 images

9 lists

- item 1
- item 2

10 tables

10.1 common elements II

10.2 tabular

this is a tabular:

| | | |
|------------|----|----|
| 3×3 matrix | | |
| 11 | 12 | 13 |
| 21 | 22 | 23 |
| 31 | 32 | 33 |

11 images

12 common errors – part 4 of the lecture

12.1 notation and reference

examples:

```
\label{marker}
...
\ref{marker}
...
\pageref{marker}
```

we can ref the (figure:2img): 11

12.2 more on figure

on

`\begin{figure}[!t]`

the `[!t]` notation means force the image shows on the top of the page.

ps:

`[!h]` means put it here.

`[!t]` means put it on top.

`[!b]` means put it on bottom.

`[!p]` means put it into another page.

12.3 footnote

this is the footnote ¹

12.4 hyper link

use the package 'hyperref'

`\url{http://the.url.is.here}`

`\href{http://there.is.another.url}` {the link title or some discription}

12.5 errors and warings

`{}` miss match: Too many `}`'s

letter wrong like `\dtae{Mar.2014}`: Undefined control sequence

not in math mode: Not in Mathematics Mode.

image or box are too large: Bad Boxes!

missing packages: Missing Packages

12.6 lengths

normally don't override `textlength` setting or something like that.

12.7 counters

not normally used

12.8 boxes

add box on the text or `\boxed{something}`

use `\framebox`

12.9 rules and struts

make some area black or something like that

¹the footnote text is here

13 common errors – part 5 of the lecture
